"It is better to offer no excuse than a bad one" - George Washington

Commander's Update By Col James Nelson

Hello everyone, and welcome to our very first issue of our chapter newsletter, THE FEDERALIST.

This is our first issue and it will take some work and feedback from you all about what you think of the newsletter. We can not improve if we do not hear from you! Its your newsletter and what each of you put into it is what we all get out of it. AS we move forward, I know I want to see more things such as articles about items in the news about Medicine, Science, and Technology etc. I look forward to hearing from you.

STARFLEET Database Issues!

Right of the bat, let me tell you for those who may not know that STARFLEET has had a major database problem for the past week. The Computer Operations Team has been working hard to get everything fixed, but it is going slow. What had happened is that the company that hosts the STARFLEET site "Dreamhost" did an update to their server but failed to tell Fleet what they were doing. I heard tonight that STARFLEET is planning on going to a new company to host our data and website and we should hear more about it in November or December.

But with these issues are also problems with renewals and new joins. Currently ther online applications is not working correctly so

you will have to snail mail your application and send a check or money order.

Chapter T-Shirts

As you look at page 12, you will see the initial T-Shirt design for

**Colonel
James Nelson**

the Chapter. Please look it over and let me know what you think. If you have any ideas or alterations, please show us. This is the time for the crew to give input in the design of the ship T-Shirt.

The color of the shirts are based off of Star Trek: TNG and the Marines Black is the color of the SFMC. We did this to keep down the number of color options and cost.

As for the patches, They can be purchased from the STARFLEET Quartermaster (STARFLEET Logo Patch) and from the chapter itself (Department Logo Patch). The com badge is going to be either a resign prop or an embroidered patch. As for the Ship's logo we are looking at a transfer that can be ironed on or something to that extent.

My intent is to have a real photo of the Chapter Duty Uniform Shirt by the next issue of the newsletter. I have the patches already being shipped and I have a proto-type transfer for the logo. And the company we would go with is the same that most of use are familiar with since it's the same that the USS Helen Pawlowski uses.

Community Service and other activities

As a reminder, since we are a correspondence chapter that what ever you do as individuals can be reported in to the chapter and then rolled-up to become chapter activities and events. So if you recycle at home, each month tell us what the approx. weight was for each type items such as glass, cardboard, paper, etc. But its not just limited to recycling. If you do things like donate blood or participate in telethons or walks/runs. There are many different activities and events that can also be reported in such as trips to museums or galleries or as simple as the zoo etc. All you have to do is tell us. A plus is when you do tell us, they can be used towards promotion points and even awards.

I hope you enjoy the issue and I look forward to our next one around January.

COL James Nelson
CO-USS George Washington

First Officer's Update By MG Mike Timko

To all hands:

Message from the XO.

As of late, the XO's office has been fairly quiet. For most of us, we are in the third month of our Shakedown Cruise. Hopefully we will be done before the traditional 9 month time frame.

On my front, I've been finishing the website, and getting us filed for the Vessel Readiness Program (got the certs back) and the Marine Unit Readiness Program (still waiting on our certs).

Even though it seems like we've done a lot these past few months, we must press on to continue to prove ourselves.

Your probably wondering how we do this.

As individuals, we can continue to take STARFLEET Academy & Marine Corps Academy courses. At

Starfleet Academy, you may want to look into the Bridge Officer Certification program if you have selected a bridge post to fill. I am working on certifying myself as an XO & CO.

**Major General
Mike Timko**

Community Service is another way to distinguish our chapter. This could be recycling, blood donations, being a Big Brother or Big Sister to a child in need, donating toys to the SFMC Toys for Tots program, etc.

You may also want to find a niche outside of our chapter. Were all good at something. Maybe you can apply to a department of Region 1 or STARFLEET?

I am good at publications so I design websites and newsletters. This led to me being recently selected to run Channel One, Region One's newsletter.

Well, that's about all I got for this month.

Should you have any questions or concerns, do not hesitate to contact me. My email address is michaelj.timko@gmail.com.

State of the Starfleet Marines Corps By GEN Michael McGowan

Greetings Marines,

Let's get straight to it.

Revised IC Awards List

This has been a long time in coming, but it has been checked several times to ensure accuracy and completeness.

Distinguished Service Cross

Dorffner, Joseph
Olson, Linda

Cross of Honor

Smiddy, Josiah

Sword of Honor

Dean, Bobby

Shield of Honor

Kolb, Shirley

Star of Honor

Chappell, Brian

Legion of Honor

287th Marine Strike Group

Cadet Cross of Honor

Wilson, Sam (G4)
Mabbitt, Benjamin (G2)

Cadet Sword of Honor

Wilson, Charlotte (G3)

Cadet Shield of Honor

Murphy, Amanda (G3)
Smith, Sean (G2)

Cadet Star of Honor

Tunis, Edward IV (G2)

STARFLEET Cross

Adams, Daniel
Allen, TJ
Anderson, Mark
Augustson, Wayne
Black, Sam
Cameron, Duncan
Carsten, Jeremy
Chappell, Brian

DeRoux, Norman

TRACOM Commander's Award

Polanis, Mark

Naval Achievement Citation

Halliday, John
Conner, Jerry

SFMC Team Delta

Dyl, Paul
Rowley, Steven
Eheart, Faith

Congratulations to one and all.

Accounts

As of last report, the SFMC general account has a balance of \$4425.94.

The scholarship account has a balance of \$2729.02.

Suggestions

The General Staff is beginning the process of updating the Marine Force Manual, SFMC Policy Manual, and TRACOM Policies and Procedures Manual.

Marines having suggestions for such updates may send those to me privately at: dant@sfi-sfmc.org. I can't promise that all will be adopted, but I can tell you that all will be given serious consideration.

Email Addresses

It is important to remember that Email Addresses no longer appear on the STARFLEET Database. This being the case, it is of vital importance that marines check and double check the email address entered on any form being sent to the SFMC for any reason. If your email address is entered incorrectly, servicing whatever request you are making, SFMCA Course, Award Certificate request, etc., will be *significantly* delayed.

I know that I said this last time, but it bears repeating. Unit OICs are reminded to make sure you report not only what your unit is doing, but who among your marines is doing it, how long they each are spending on the project, and who such projects are benefiting. Making sure your reports are complete and thorough is the responsibility of each OIC. Dailing to do so ensures that deserving marines will not get the recognition they deserve. These are your friends, take care of them.

Finally, I have been having some issues getting properly logged on to Facebook lately. If you have been

awaiting a response from me on Facebook, please drop me an email at: dant@sfi-sfmc.org.

Thanks for your time, see you next month.

Mike

Search for Alien Life Should Target Water, Oxygen and Chlorophyll

By www.Space.com

This artist's concept shows Kepler-186f, the first roughly Earth-size planet found to be orbiting in the habitable zone of its star. Searches for signs of life on worlds such as Kepler-186f could focus on water, oxygen and alien versions of chlorophyll, researchers say.

Credit: NASA Ames/SETI Institute/JPL-Caltech

The next generation of space telescopes hunting for signs of extraterrestrial life should focus on water, then oxygen and then alien versions of the plant chemical chlorophyll, a new study suggests.

In the past 20 years or so, astronomers have confirmed the existence of nearly 2,000 worlds outside Earth's solar system. Many of these exoplanets lie in the habitable zones of stars, areas potentially warm enough for the worlds to harbor liquid water on their surfaces. Astrobiologists hope that life may someday be spotted on such alien planets, since there is life pretty much everywhere water exists on Earth.

One strategy to discover signs of such alien life involves looking for ways that organisms might change a world's appearance. For example, chemicals typically shape what are known as the spectra seen from planets by adding or removing wavelengths of light. Alien-hunting telescopes could look for spectra that reveal chemicals associated with life. In other words, these searches would focus on biosignatures — chemicals

or combinations of chemicals that life could produce, but that processes other than life could not or would be unlikely to create.

Astrophysicists Timothy Brandt and David Spiegel at the Institute for Advanced Study in Princeton, New Jersey, sought to see how challenging it might be to conclusively identify signatures of water, oxygen and chlorophyll — the green pigment that plants use to convert sunlight to energy — on a distant twin of Earth using a future off-Earth instrument such as NASA's proposed Advanced Technology Large-Aperture Space Telescope (ATLAST).

The scientists found that water would be the easiest to detect.

"Water is a very common molecule, and I think a mission to take spectra of exoplanets should certainly look for water," said Brandt, the lead study author. "Indeed, we have found water in a few gas giants more massive than Jupiter orbiting other stars." In comparison, oxygen is more difficult to detect than previously thought, requiring scientific instruments approximately twice as sensitive as those needed to detect water and significantly better at discriminating between similar colors of light.

"Oxygen, however, has only been a large part of Earth's atmosphere for a few hundred million years," Brandt said. "If we see it in an exoplanet, it probably points to life, but not finding oxygen certainly does not mean that the planet is sterile."

Although a well-designed space telescope could detect water and oxygen on a nearby Earth twin, the astrophysicists found the instrument would need to be significantly more sensitive, or very lucky, to see chlorophyll. Identifying this chemical typically requires scientific instruments

about six times more sensitive than those needed for oxygen. Chlorophyll becomes as detectable as oxygen only when an exoplanet has a lot of vegetation and/or little in the way of cloud cover, researchers said.

Chlorophyll slightly reddens the light from Earth. If extraterrestrial life does convert sunlight to energy as plants do, scientists expect that the alien process might use a different pigment than chlorophyll. But alien photosynthesis could also slightly redden planets, just as chlorophyll does.

"Light comes in packets called photons, and only photons with at least a certain amount of energy are useful for photosynthesis," Brandt said. Chlorophyll reflects photons that are too red and low in energy to be used for photosynthesis, and it may be reasonable to assume that extraterrestrial pigments would do the same thing, Brandt noted.

The researchers suggest a strategy for discovering Earthlike alien life that first looks for water, then oxygen on the more favorable planets and finally chlorophyll on only the most exceptionally promising worlds.

"The goal of a future space telescope will be primarily to detect water and oxygen on a planet around a nearby star," Brandt said. "The construction and launch of such a telescope will probably cost at least \$10 billion and won't happen for at least 20 years — a lot of technology development needs to happen first — but it could be the most exciting mission of my lifetime."

Brandt and Spiegel detailed their findings online Sept. 1 in the journal *Proceedings of the National Academy of Sciences*.

USS George Washington Awards Program By COL James Nelson

It is with great pleasure to announce the following awards to recognize them for their achievements and service:

OTS Award

2LT Paul Mogilka
2LT John Mogilka
2LT Leonard Peffer Sr
2LT Alisha Peffer
2LT Brian Dyl
2LT Angela Dyl
PO3 Heather Nelson
CRM Kayla Nelson
LTJG Angela Spugnardi
ENS Alex King
2LT Eric Dyl

COL James Nelson
LTJG Angela Spugnardi

Boothby Award-Dilithium-300
BRG Christopher Bayonet

Boothby Award-Titanium-350
MG Michael Timko III

The chapter awards program was adopted from the Region 1 and USS Helen Pawlowski Awards Program and adapted to include a few miscellaneous awards from other regions to accommodate awards earned while in another region that has an equivalent to the awards we use on the chapter.

As we continue to grow and organize our operating procedures, if you feel that your participation in a chapter or Region/Fleet event qualifies you

for an award, talk to your Department Chief, First Officer or myself and make he/she aware.

Awards will be reviewed by the awards board each quarter and if approved, the Operations Department will complete the award packet and produce the proper certificate for presentation during the next available meeting or event.

Please see the Chapter Awards Policy for further information on STARFLEET Awards, Region One Awards and the USS George Washington Awards.

OCC Award

LTJG Angela Spugnardi
ENS Alex King

Boothby Award-Bronze-50

USS George Washington Promotions By COL James Nelson

I would like to take this time and recognize everyone who has been promoted since we launched a few months ago.

Promoted to Petty Officer 3rd Class

Josh McClullan
Kenny Mosses
Matthew Coots

Promoted to Second Lieutenant

Paul Mogilka
John Mogilka
Leonard Peffer Sr
Alisha Peffer
Brian Dyl
Angela Dyl

Promoted to Marine Private First Class

Briana Shoaff
Alexis Shoaff
Megan Shoaff

Promoted to Lieutenant Junior Grade

Angela Spugnardi

Promoted to Major

Terri Leavitt

Promoted to Ensign

Alex King

Promoted to Marine Colonel

James Nelson

Promoted to Marine Major General

Michael Timko III

If you have any questions pertaining to the chapter promotion system, please reference your Chapter Promotion Policy that I believe everyone should have a copy now. If not just drop me an email at USSGW-CO@ec.rr.com

Please review the Time in Grade requirement in the promotion Policy. If you feel that you qualify for a promotion, see your Department Head. She/he will assist you in completing the chapter promotion worksheet and having it submitted to the Operations Department.

Remember that for Officer ranks, OTS is a prerequisite and depending on the rank being recommended for, OCC could also be a prerequisite.

OPERATIONS

- We continue to organize our Chapter and the 130th MSG

- 2LT Brian Dyl & 2LT Paul Mogilka both earned their pilot wings during period by taking AE-291

- 2LT John Mogilka, 2LT Paul Mogilka, 2LT Brian Dyl, 2LT Angel Dyl, 2LT Alisha Peffer and 2LT Leonard Peffer have all earned their Infantry Device-Silver

- COL James Nelson, 2LT Paul Mogilka, 2LT John Mogilka and 2LT Leonard Peffer Sr participated with other Marines from the USS Helen Pawlowski, USS Liberty, and the USS Freedom with the monthly online gaming Modern Warfare that was held on August 9,2014.

- Mike Timko & Terri Leavitt recycle paper, plastic, aluminum & glass. In August they recycled 64.9 pounds & in September they recycled 65.0 pounds

- Mike Timko & Terri Leavitt participate in ink jet cartridge recycling. In August they sent in 3 used cartridges and in September they sent in 5 used cartridges.

- Mike Timko, Terri Leavitt, Emily Leavitt-Timko & Michael Timko IV took a trip to the Animal Safari Park in Port Clinton, Ohio.

- Mike Timko participated in SETI@Home during the months of August & September. Currently Michael has 1,055,000 credits of knowledge.

- Mike Timko participated in Galaxy Zoo during the months of August & September. Galaxy Zoo is an online astrological mapping program.

- Jeanne Timko, Michael J Timko Sr. & Michelle Timko recycle paper, plastic, aluminum & glass. During the month of August they recycled 63.5 pounds & in September they recycled 63.8 pounds.

Continued on page 12

Marine Officer's Update Cont.

Continued from page 11

Chris, Megan & Emma Bayonet:

-Participated in several BOINC projects:

- Asteroids@home 267,840
- SETI@home 39,138
- Enigma@Home 449
- SIMAP 117
- Einstein@Home 125
- yoyo@home 28

- Donated 24 Boxtops for Education
- Took 20 fulls bags to be recycled
- Goodwill Donations - approximately \$100 in items

Blood Donation - Chris

Not personally donating, but collection of close to 200 units for the Central Virginia area due to mundane occupation at Virginia Blood Services

Voluneteerism

Megan - 6 Hours at St. John's the Evangelist Catholic Church
 Chris - 72 Hours at Waynesboro First Aid Crew at Waynesboro First Aid Crew as EMT/Attendant-in-Charge & 2 Hours at St. John's the Evangelist Catholic Church
 Emma - 2 Hours in training classes at Waynesboro First Aid Crew

Scholastic Achievement

Emma - Was granted permission by the school district to enroll at First Grade instead of Kindergarten for Elementary School based on her scholastic aptitude. [Highest Math Group in First Grade and Second Highest Reading Group in First Grade].

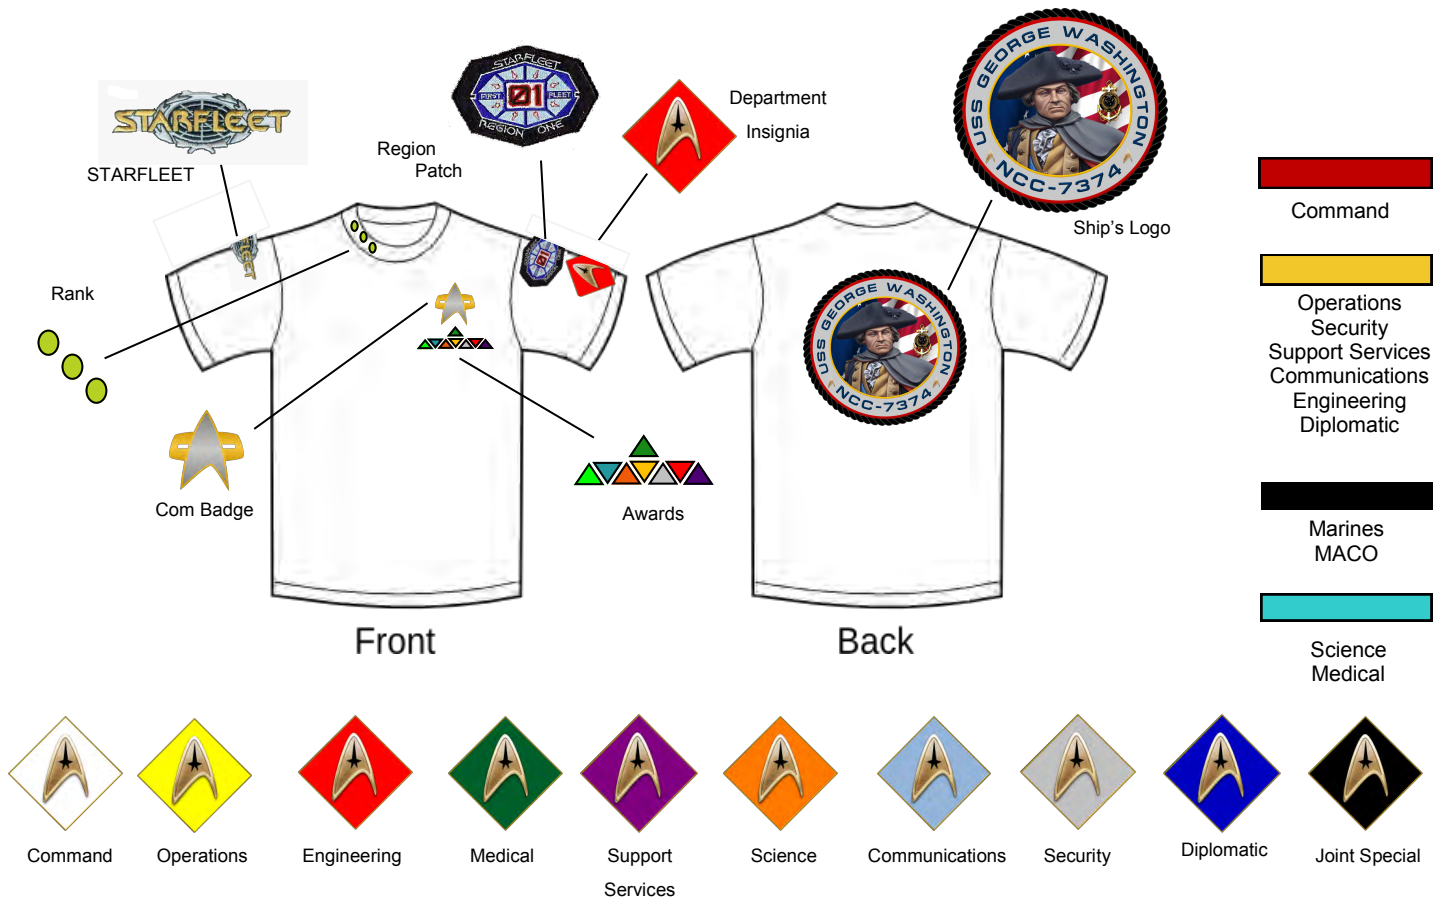

Megan, Emma and Chris - Also have traveled back to the 1860's and visited the Battle of Waynesboro, VA to observe and record the events there.

Megan, Emma and Chris - Have also traveled to the Virginia Beach Marine Science Museum and learned about all sorts of Aquatic Creatures and Environments as well as the tools required to work therein. Have also studied the tidal system via first hand experimentation in Virginia Beach.

MG Michael Timko III
130th MSG OIC

The rank system used on the duty uniform is the rank system seen in Star Trek: The Next Generation,.

230th MACO Officer's Update By COL James Nelson

CPT James Nelson

please send me an email and let me know.

As for the MACO Class C uniform, we wear the Urban Tiger Stripe Combat Uniform. I will hopefully have some pictures for you soon as to what and how they are worn. I know RADM Paul Dyl of the USS Helen Pawlowski is working on an Enterprise style but in CAMO for the 119th MACO and as I receive more information about them I will let you know.

The last issue to discuss is about the MACO Training. Yes the courses are about 52 in all. But it's a requirement if you want to be a true MACO. You may be assigned to the MACO unit, but until you complete your training, your a trainee and not a MACO. For more information about the training requirements, drop me an email and I will get a copy out to you.

Well that's all for now!

CPT James Nelson
230th MACO, TL
USSGWCO@ec.rr.com

Greetings MACO's!

Yes, we have finally become our own MACO unit. The 230th MACO unit will have a Special Operations structure. As we continue to organize ourselves and build the foundation for a good strong unit, I will be looking for an Assistant Team Leader. The Assistant Team Leader will need to certify as a MACO Team Leader as prescribed by the MACO Training requirements.

For those interested, we have joined with the other chapters of Southeastern North Carolina to participate in a monthly online gaming session of Modern Warfare: Black Ops II or Ghost. If you have an XBOX 360 and an internet connection along with the game, then you are very welcomed to join in. October 18th was our last session and our next scheduled session will be November 15. If you decide you do want to join in, please contact me for the details.

Below will be our MACO unit patch.. I can have them made at about \$7.00 each and I have to have 25 before I can order. The other patch is the universal MACO patch found at the end of my report. That too will cost about \$7.00 each and I must order 25. So if your interested in ordering on or both,

Operations Officer's Update VACANT

Position for USS George Washing-

ton Chief Operations Officer is now open for applications.

The Chief Operations Officer can have many duties, including, but not limited to: Assisting with the day to day operations of the chapter. To accomplish this task, the Chief of Operations maintains the chapter personnel database, produces award certificates, promotion certificates and processing of new members.

If you are interested in applying, send what you think is pertinent in

your Real Life Resume and Fleet Resume with a paragraph detailing what you would do with the department if chosen as the Chief Operations Officer.

Thank you,

COL James Nelson
CO-USS George Washington
USSGWCO@ec.rr.com

Engineering Officer's Update VACANT

Position for the USS George Wash-

ington Chief Engineering Officer is now open for applications.

The Chief Engineering Officer can have many duties, including, but not limited to: Collecting, organizing and maintaining the ships Engineering Library which is a collection of the vast ship schematics that have been professional published or even fan produced. The Department also can get involved in things such as model building and computer graphical modeling.

If you are interested in applying, send what you think is pertinent in your Real Life Resume and Fleet Resume with a paragraph detailing what you would do with the department if chosen as the Chief Engineering Officer.

Thank you,

COL James Nelson
CO-USS George Washington
USSGWCO@ec.rr.com

Diplomatic Officer's Update Vacant

Position for the USS George Wash-

ington Chief Diplomatic Corps is now open for applications.

The Chief Diplomatic Corps can have many duties, including, but not limited to: Coordination with both STARFLEET chapters and other Trek related organizations such as KAG, Romulan Star Empire etc. The Chief Diplomatic Corps Officer also maintains information about the different races found in the Star Trek Universe and assists members with source information with courses at SFA.

what you think is pertinent in your Real Life Resume and Fleet Resume with a paragraph detailing what you would do with the department if chosen as the Chief Diplomatic Corps Officer.

Thank you,

COL James Nelson
CO-USS George Washington
USSGWCO@ec.rr.com

Communications Officer's Update Vacant

Position for the USS George Wash-

ington Chief of Communications is now open for applications.

The Chief of Communications can have many duties, including, but not limited to: Publication of the chapter 's bi-monthly newsletter the "Federalist", Interaction with the region's Publications Officer and RDC Communications. Assists with the chapter publications such as certificates, Membership Handbook and flyers.

If you are interested in applying, send what you think is pertinent in your Real Life Resume and Fleet Resume with a paragraph detailing what you would do with the department if chosen as the Chief Communications Officer.

Thank you,

COL James Nelson
CO-USS George Washington
USSGWCO@ec.rr.com

Security Officer's Update VACANT

Position for USS George Washing-

ton Chief Security Officer is now open for applications.

The Chief Security Officer can have many duties, including, but not limited to: Assisting crewmembers needing transportation to from ship activities. And coordinating and executing chapter activities that have strategy components such as Star Trek Online, Modern Warfare gaming sessions and even Paint ball competitions.

If you are interested in applying, send what you think is pertinent in

your Real Life Resume and Fleet Resume with a paragraph detailing what you would do with the department if chosen as the Chief Security Officer.

Thank you,

COL James Nelson
CO-USS George Washington
USSGWCO@ec.rr.com

Medical Officer's Update VACANT

Position for USS George Washing-

ton Chief Medical Officer is now open for applications.

The Chief Operations Officer can have many duties, including, but not limited to: Assisting with the day to day operations of the chapter. To accomplish this task, the Chief of Operations maintains the chapter personnel database, produces award certificates, promotion certificates and processing of new members.

If you are interested in applying, send what you think is pertinent in your Real Life Resume and Fleet Resume with a paragraph detailing what you would do with the department if chosen as the Chief Medical Officer.

Thank you,

COL James Nelson
CO-USS George Washington
USSGWCO@ec.rr.com

Science Officer's Update VACANT

Position for the USS George Wash-

ington Chief Science Officer is now open for applications.

The Chief Science Officer can have many duties, including, but not limited to: Keeping the crew informed of areas related to Science. This is accomplished by submitting articles about items of Science such as Astronomy, Physics, Technology, History etc. The Department also can plan and execute educational trips related to science such as to the NC Zoo and Museum of History etc.

If you are interested in applying, send what you think is pertinent in your Real Life Resume and Fleet Resume with a paragraph detailing what you would do with the department if chosen as the Chief Science Officer.

Thank you,

COL James Nelson

State of the NCO Corps By MGSgt Jerome A. Stoddard

Greetings Marines!

I had this ready to go several days ago, but just before I posted it, I received the news of the untimely passing of LGN Gary "Tiny" Hollifield, and I decided to do what amounted to a substantial rewrite. So, with a bit of further ado, let's head on over to the booth in the back in the corner in the dark of my local NCO club, where there's a prominent sign that says "Check your weapons at the door" (let's see? locked, loaded, safety on? I'm good) and a snowstorm early this month resulted in a few choice words re the Meteorology gang and an uptick in computer queries about "Tar and Feathers".

When we lose one of our own, the usual sympathy messages in STARFLEET and the SFMC often refer to dimming fictional running lights on vessels, or the "Missing Man" formation being done by fictional aerospace craft, or even the lowering of usually fictional flags to half mast, and, don't get me wrong? it's a genuinely touching and heartfelt gesture. But, something about that has always bothered me - it's ONLY a gesture. I've been known to take it a step further out here in the back side of nowhere, taking out a venerable old rifle that actually saw combat in WW2 and firing the ceremonial three volleys on the day of a funeral for a fellow STARFLEET member (please, unless you live out in the boonies like I do, do NOT try this at home), but, at the end of the day, it's still only a gesture.

But, Tiny's untimely death had me sitting here at my old desk, filling the air with smoke from my favorite briar pipe, trying to find some way to DO something that wouldn't be just a gesture - to find a way to bring some meaning to what I was feeling and to somehow making my personal sense of loss into something positive. And then, my personal musings were interrupted by a voice inside my head that reminded me that I had a JOB to do in the SFMC, and I had a "light bulb?"

moment.

As I have often reminded you, one of the assigned responsibilities of my office is "promoting and assisting in the organization of community service activities at all levels within the SFMC," and THAT was the answer I'd been looking for. Perhaps instead of a gesture, no matter how special or sincere it was, a better way to mark the passing of one of our own might be to find some form of community service related to a cause they supported and do the work they could no longer do.

So, I'm going on the record right now as pledging to find some way to help or raise funds for an organization dedicated to helping fight against diabetes - that disease was a large factor in Tiny's health problems. It's not going to be easy, considering the fact that I only get into town once or twice a month usually, but somehow, I'll find a way. And if I don't, I'll at least have tried.

Returning to my regularly scheduled report, one of the "perks" of being an enlisted member of the STARFLEET Marine Corps is the ability to earn and wear the NCO Development Ribbon (aka the NCO Academic Ribbon). This is currently one of the highest ranking "Training Awards" in the SFMC, consisting of the usual white ribbon with a silver "1", "2", or "3" added to it to designate the level of training at the SFMC NCO Academy passed. But, in the years since this ribbon was added to the awards a Marine can earn, commercial sources for the attached numerals in SILVER have completely dried up. It is still possible to find the numeral ribbon attachments in a bronze or gold tone, but, at this time, the silver attachments required seem to be "unobtainium".

Now, it is POSSIBLE, but not very practical to paint one of the bronze or gold numerals that are still available from the usual sources and make them silver. That would entail first

roughing up, then priming, and finally painting a very small piece of metal, and if your hands are steadier than mine, you're certainly welcome to do so. But, after bringing the problem to the attention of the General Staff, I am duly authorized to inform you that, unless and until the silver numerals become commercially available again, using a bronze or gold attachment "as is" will be considered perfectly acceptable, and the next edition of the MFM will reflect this.

Speaking of the next edition of the MFM - a reminder that the Commandant has informed everyone that any suggestions, questions, comments, etc that you may wish to see addressed in the next edition of the Marine Force Manual should be sent in to him "well" NOW would be a good time. Please take a moment to go through the current MFM (perhaps for the first time) and jot down whatever notes you feel need addressing, and email them to the Dant.

Always remember that the SFMC General Staff needs your input and ideas in order to properly do our jobs. Don't hesitate to contact the appropriate GS member with your questions, comments and ideas. You can find all the email addresses at the SFMC website, and, of course, we monitor the Corps-I list, and the SFMC Facebook group.

Now it's time for Top's History Lesson. In 1944, near Littoria (now Latina) in central Italy, despite an artillery duel going on between Allied and German forces, a peasant farmer apparently out weeding his fields stopped to tie his shoes, then shook his fist at the German soldiers about 600 meters away, then at the distant Allied forces, apparently in anger for the interruption and noise, before returning to a nearby farmhouse. That "peasant" was actually Reconnaissance Sergeant Tommie Prince, a Canadian member of the infamous First Special Service Force - better known as "the Devil's Brigade" - and he had used the action of tying his shoes to cover up what he was REALLY doing, namely fixing a break in the nearly a mile of carefully concealed telephone line he was using to report on the

COFORCECOM Update

By BGN Jari James

Good day, Marines.

First off, just a brief comment. September is disaster preparedness month here in the US and even though we're coming up on the tail end of the month, this is a topic that really knows no specific date. Throughout the world seasons are changing and each region will have it's own climactic events to be on the look out for. Please take a moment and make sure you're ready. Simply search 'disaster planning' on the internet and you'll find a lot of guidelines and free checklists to download.

One aspect of readiness is making sure all your important data on your computer is backed up. By 'important', I mean bank records, scans of the front and back of your credit cards, scans of your important papers [wills, mortgage, car loan, insurance papers, pep information] and such. I know there are more and more folks using cloud backup systems, but also consider the lowly flash drive that you can shove in your pocket, have in your evac bag, etc. Always go big. Just when you think a 16 GB drive will do, you'll find another 3 GB of stuff to store. And if you're like me, a regular bit hoarder, you might consider a portable hard drive and case.

Now, on to FORCECOM work.

One question that comes across my desk quite a bit right after the International Muster is 'I just checked my awards on the database and I don't see my muster award from IC.'

Short answer: you do not receive the 'Brigade Muster Award' for attendance at IC, you receive the International Service Award. I know it can seem a bit confusing. Especially if you're one of the lucky ones and the International Conference is being held in your home Region and Brigade. But the names really do define the awards.

The Brigade Muster Award [gold/red ribbon – no more than one a year] is issued to any member of the SFMC

who attends his/her Brigade's annual muster if that Brigade has one. Not all Brigades do so I understand that this may not be something available to everyone. If you have a specific question regarding this, please contact me privately and we'll discuss it.

The International Service Award [gold/black – no more than one a year] is issued to any member of the SFMC who attends the International Muster held at IC.

Based on the above, over a period of one year you could see a Brigade Muster, an International Service or both of these listed on the database, depending on what events you were able to be at in any given year. But you will never see more than one of each in a calendar year.

As a quick reminder as to who does what:

FORCECOM is in charge of Achievement and Service award entries as well as making sure you're in the right unit, etc. If you have any questions about these awards, your Unit assignments or other personnel questions, please send them up the Chain to FORCECOM.

TRACOM manages all entries to do with SFMCA courses and Training Awards. If you've completed a course and you don't see it on the database after a reasonable amount of time has past [please give them a few weeks], contact the Director of the specific Branch/School or go up the Chain to TRACOM.

Concerns or questions regarding either Medical Awards go directly to the SFMCA Medical Director who is the issuing authority.

Email addresses for all of the above can be found on the SFMC website.

Let me finish with some rough numbers from the database. Please remember that the database is a 'fluid

system'. That means that a variety of people are making changes to it on an ongoing basis so the phrase 'Your mileage may vary' is fairly accurate.

1387 Marines total as listed on the database 27 Sept, 2014.

1 BDE: 293 Marines total: 121 Marines in 27 units [77 active/44 reserve], 172 Marines unassigned

2 BDE: 126 Marines total: 107 Marines in 16 units [83 active/24 reserve], 19 Marines unassigned

3 BDE: 181 Marines total: 131 Marines in 23 units [75 active/56 reserve], 50 Marines unassigned

4 BDE: 99 Marines total: 53 Marines in 7 units [43 active/10 reserve], 46 Marines unassigned

5 BDE: 71 Marines total: 63 Marines in 12 units [29 active/34 reserve], 19 Marines unassigned

6 BDE: 33 Marines total: 19 Marines in 5 units [14 active/5 reserve], 14 Marines unassigned

7 BDE: 168 Marines total: 97 Marines in 24 units [59 active/38 reserve], 71 Marines unassigned

8 BDE: 3 Marines total: 0 Marines in 0 units [0 active/0 reserve], 3 Marines unassigned

9 BDE: 11 Marines total: 0 Marines in 0 units [0 active/0 reserve], 11 Marines unassigned

10 BDE: 22 Marines total: 11 Marines in 2 units [6 active/5 reserve], 11 Marines unassigned

11 BDE: 64 Marines total: 43 Marines in 5 units [36 active/7 reserve], 21 Marines unassigned

12 BDE: 113 Marines total: 82 Marines in 12 units [49 active/33 reserve], 31 Marines unassigned

13 BDE: 22 Marines total: 11 Marines in 4 units [8 active/3 reserve], 11 Marines unassigned

Continued on page 18

Continued from page 16

nearby enemy troops and call in fire corrections that eventually resulted in the destruction of four enemy batteries during the three days he spent behind enemy lines. For this, the young member of Canada's Ojibwa tribe was awarded the Military Medal, the citation reading in part "Sergeant Prince's courage and utter disregard for personal safety were an inspiration to his fellows and a marked credit to his unit."

Not long after that, the 1st SSF was moved to southern France, and once again the marksmanship, and skill at tracking and moving stealthily through the countryside that Prince had learned as a youngster in and around the reservation in Canada came into play, as he and a private went on a long scouting mission behind enemy lines near the border between France and Italy. He came across an enemy battalion's encampment, and started back to report on its location when he and his single companion came across a French partisan group engaged in battle with an enemy unit. They stopped to lend a hand, and their accurate fire coming from concealment and an unexpected direction drove the enemy off. When the French commander, glad of the unexpected reinforcements, asked where Prince's company was, the Canadian Sergeant pointed at the private and said "Here", leading the Frenchman to exclaim that he was

sure that Prince must have had at least fifty men with him. That commander nominated Prince for the Croix de Guerre, but the courier carrying the nomination was killed en route and the medal was never awarded. However, after a grueling 72 hours with little rest behind enemy lines, Prince made it back to his unit, reported on the location of the enemy battalion, led his unit back to them, and participated in the attack that resulted in most of the enemy surrendering. For his part in locating and wiping out this substantial force, he was eventually awarded a Silver Star by the Allied command.

After World War Two, he returned to Canada, and tried to make a go at civilian life. I'll spare you the details, but, after some initial success, it didn't go that well, and when the fighting began in Korea, Tommie Prince reenlisted in the Canadian Army, at his previous rank of Sergeant. He was later to say "As soon as I put on my uniform I felt a better man." Sergeant Prince earned further honors and served with distinction during the Korean War, despite increasingly painful arthritic knees that removed him from action for long periods during the war.

After the war, those knees made civilian life even more difficult for him, and his personal life went downhill again. Fighting against the prejudices against "First Nations" people that

was rampant at the time, and unable to cope with life outside the service, he became estranged from his family and alcoholism claimed him. Despite a brief period of public acknowledgement in 1955, when he saved a man from drowning, he withdrew to a lonely life, eventually passing away in a Salvation Army facility in 1977.

But, Tommie Prince has not been entirely forgotten in Canada. There are streets, schools, barracks, and even scholarships bearing his name now, and in 2010 it was announced that there was a movie in development about one of the most decorated "First Nations" soldiers in history. Perhaps somewhere, the spirit of Tommie Prince is resting a bit easier now, even though that recognition came a bit too late to help him directly.

But, if you take anything away from his story, perhaps you'll ask yourself the next time you pass by a ragged, homeless veteran "Was this another Tommie Prince? another genuine hero fallen on hard times?? and perhaps whatever you say or do may not be too late for them.

In service and in friendship,

MMSGT Jerome A. Gunny Hawk
Stoddard
Sergeant Major of the STARFLEET

Region One Summit 2015

1,001 Orion Nights

Do Not ask for whom the dice roll...

....they roll for thee.

It's not about the DESTINATION — It's about the TREK. If you venture to only one SUMMIT venture to OURS!

The USS INDIANA proudly presents the R-1 Summit to be held on April 10-12, 2015, at the Clarion Hotel Waterfront, 2930 Waterfront Pkwy, Indianapolis, IN 46214.

The theme will be "1,001 ORION NIGHTS".

Our "Best of Orion" is not to be missed. Request shore leave and immerse yourself in our culture, savor our cuisine, indulge in your wildest fantasies with our "Gorgeous Greens". Enjoy the live entertainment, dealers room, brand-new panels, and boogie your butt off at the M-11 Discothèque! Secure your passage on the next shuttle out — Indianapolis awaits!

Book the 'Special 40 % Off Promo Rate' of \$49 for Adults! \$28 for Kids! This includes a two night stay and Officer's Mess Saturday night! Other dinner plans? No worries: \$21 for Adults or \$12 for Kids!

Uplink our website to your PADD so you can take advantage of these exceptional offers and to also customize your experience with us! Don't forget your \$72 room rate!

Please call the Clarion Waterfront at (317) 299-8400 and ask for the STAR TREK rate.

Please call the Clarion Waterfront at (317) 299-8400 and ask for the STAR TREK rate.
