For any Cadet Marine Rank (regardless of Non-Commissioned/Enlisted or Commissioned) the Cadet in question must take and pass PD-100 to transfer over to a Non-Cadet Marine Rank. If they do not, they will transfer over at the applicable Fleet Level equivalent.

These Cadet awards may be added to at any time by any member of the Senior Staff of the USS Gallifrey as well as the Cadet Training Officer and Cadet Captain.

The Cadet Captain will need to find a co-sponsor among the Senior Staff and/or Cadet Training Officer prior to any awards they issue being added into the official rolls.

Scholastic Achievement Awards

These Scholastic Achievement Awards are not meant for endeavors within STARFLEET Academy or STARFLEET Marine Academy; they are meant to recognize achievement outside of the various STARFLEET Academies.

Leah Brahms Award of Excellence

This Award of Excellence is awarded to those cadets who during the course of their mundane studies maintain an above average GPA. This award comes in three Orders of magnitude and are as such

- 1st Class – The student has maintained for the period of 1 grading cycle a GPA of 4.0, equivalent to an A+ or "Exceeds Expectations" in all areas.
- 2nd Class – The student has maintained for the period of 1 grading cycle a GPA of 3.5 or Better, equivalent to an A or "Exceeds Expectations" in at least 4 areas.
- 3rd Class – The student has maintained for the period of 1 grading cycle a GPA of 2.5 or Better, equivalent to a B or "Exceeds Expectations" in at least 2 areas.

Unfortunately, due to the nature of this award there are no "Honorable Mentions" able to be noted into the Cadet Files. Being "Average" or merely "Meeting Expectations" is contrary to what the intention is meant to be.

Bronze Cluster

The Bronze Cluster is used to denote those who have achieved these awards while in a 9th to 12th Grade Curriculum.

Silver Cluster

The Silver Cluster is used to denote those who have achieved these awards while pursuing Undergraduate level studies in College.

Note: The Silver and Gold Clusters are the only Cadet Awards that may by their nature be given to a Senior Member of the crew; the only stipulation is that the member in question must have also received either non-adorned or Bronze Cluster of this award. These versions are "continuation" awards for work achieved while in the Cadet Program to encourage the former Cadets to continue to excel.

Gold Cluster

The Gold Cluster is used to denote those who have achieved these awards while pursuing Graduate level studies in either College (Masters or PhD Programs), Medical School or Law School.

- The PhD level awards may be denoted with an Open Gold Book adorned in the middle of the award.
- The Law School awards may be denoted with a Gold Quill adorned in the middle of the award.
- The Medical School awards may be denoted with a Gold Caduceus adorned in the middle of the award.
- The Theological awards (if the student has entered the Clergy of their religion) they may display a Golden version of their religious symbol adorned in the middle of the award.

In the case that there can be multiple charges in the award, the cadet in question may at their options display multiples of this award on their uniform/case.

Note: The Silver and Gold Clusters are the only Cadet Awards that may by their nature be given to a Senior Member of the crew; the only stipulation is that the member in question must have also received either non-adorned or Bronze Cluster of this award. These versions are "continuation" awards for work achieved while in the Cadet Program to encourage the former Cadets to continue to excel.

Appendix I: Cadet Training Worksheet

Cadets are expected to have this sheet completed up to the rank they wish to be promoted to. In some of these cases there will be Marine Rank(s) between Fleet Ranks, the Cadet in question, even if they are following Fleet Ranks, is still responsible for the material at the Marine Rank level. The Marine Ranks offer smaller incremental steps between the corresponding Fleet Rank promotions.

Additionally, in many cases both Marine Cadets and Fleet Cadets will be required to take classes from the other's academy in order to progress up their promotion tiers. This is done intentionally to expose both members to the other Academies.

Continuation Progression (18+ years of age)

The Continuation method is intended for those who have reached at least a Yellow Sash using the Standard Progression but have aged out of the "Cadet Program" and wish to finish their progression towards the rank of Grandmaster.

This is not an easy path to undertake, and in actuality requires more dedication and training than if they would have been able to finish it while a Cadet; but those brave enough to embark on the Continuation Progression path will reap greater rewards in their lives.
